

Healthy Babies, Happy Moms

HealthyBabiesHappyMoms.com

With over 25 years of experience managing corporate lactation programs, we are uniquely positioned as the provider of choice for private and public entities needing lactation support for their employees.

Our Mission

Healthy Babies, Happy Moms Inc. is passionate about providing cost effective services to employers that ensure a positive impact on the health of the mothers and babies we care for.

We work with Human Resource Departments to develop programs that prevent employee turnover and decrease healthcare costs. Our goal is to have your employees return to work after the birth of their baby well rested and confident in their ability to manage their family life, working, and pumping.

Our expert nurses guide mothers with the information, support, and products they need to be confident in their ability to care for their children, while minimizing stress and fostering success in their breastfeeding goals.
